

Mayoral Election

A voter's guide

Make your mark  IN Salford

Introduction

On 3 May 2012, you, as a Salford voter, will have the opportunity to decide who will become the city's first elected mayor.

The elected mayor will lead Salford City Council, provide strategic direction and be responsible for the implementation of council policy and the delivery of its services.

The elected mayor's role is different to that of the current mayor whose role is ceremonial.

The elected mayor will not be a councillor although existing councillors can stand as candidates for election. The person elected will, however, appoint a cabinet of between two and nine elected councillors who will support the elected mayor in leading the council and making decisions. The elected mayor will also appoint a deputy mayor, who will stand in when the mayor is absent.

This booklet contains a full list of mayoral candidates and an 'election address' from the candidates who have contributed to the cost of producing it. It is a legal requirement that a copy of this booklet is sent to every registered voter in the city.

Each 'election address' has been provided by the individual candidate, along with any photographs or artwork. It sets out their own views and policies, not those of Salford City Council.

3 May elections

On 3 May, you will be able to vote in two elections:

- You will be able to make your vote for your **one** chosen candidate in the **local election** which is the election of a councillor for your Ward; and
- You will also be able to make **two** votes for your first and second choice candidates in the **mayoral election**

The mayoral election will be using a different system than the 'first past the post' system that we are familiar with. This system is known as the supplementary vote system.

Supplementary vote system - Guidance on the voting process

Under the supplementary vote system, your ballot paper will have two columns, one for your first choice candidate and the other for your second choice candidate.

You do not have to vote for a second choice candidate if you don't want to.

A second choice for the same candidate will not count

If you only want to make a first choice vote, place your X in the first choice column. An X in the second choice column will not be counted as a first choice.

If you want to make a first and second choice vote, make sure you place an X in both columns. Do not place both Xs in one column as neither vote will count.

Sample ballot paper for voter making a first choice vote only:

| Election of Mayor | | | | |
|-------------------|--|------|----------------------------|-----------------------------|

Supplementary vote system - How will the mayor be chosen?

Initially, all the first choice votes are counted. If one candidate gets more than 50% of the first votes cast, they are then elected.

If no-one gets more than 50% of the first choice vote, the two candidates with the highest number of first choice votes stay in the contest. The rest of the candidates are eliminated.

The second choice votes on the ballot papers of the eliminated candidates that have been cast for the two remaining candidates are counted and added to their first choice totals. Whoever has the most votes is elected as mayor.

My Pledge To You

Personal Profile

My name is Paul Massey and I am a person who has lived in Salford all my life furthermore I am a devoted family man. I have five children and seven grandchildren and i want to fight for a better future for them, not only for my children but for yours too. I am a local small business man and understand all the pressures of business life, for example trying to survive in today's society. I understand many social problems that are bound to our community and the despair I feel concerning all the good people of this great city, i am confident and given the opportunity to represent the people of Salford and with your support we can FIGHT to make the different. There's no quick fix to the problems in Salford especially in areas of low employment and crime, however, as someone who has experienced both sides of this fence, i am certainly qualified to address these problems and address them I will.

Where is Salford's youth's policy?

As council tax contributors should we not be asking the question, where are our youth services? Kids clubs, summer holiday programmes etc etc....

The youth services were prevalent during the 70's and 80's indeed Salford lads club and others of their ilk did schooling work to help their communities, alas now the city of Salford is a shadow of its former glory.

The aged and the way forward

With all the local cuts we have got to maintain that our older generation are looked after and enjoyed a better quality of life, health wise and socially. The older generation feel unprotected and unwanted and therefore I will FIGHT for all their issues.

Give the youths a chance

Let's create employment for the youths to give them a chance in life, this will surely reduce the crime figures and employment status will rise and maybe we should be thinking of trying to get more youth's from unemployed families into further education.

If elected

I promise you this; I will continue to strive forward in the fight for the elderly, for the youth and for the community at large.

BERNARD GILL

There are many serious problems facing Salford and as Mayor I would tackle them head on with straightforward common sense policies.

Like people all over the country there are major concerns about the lack of jobs, housing, policing, health and education.

As the son of working class parents I know first hand how grammar schools enable social mobility for all and this is something that parents understand far better than career politicians.

I also feel that my career has equipped me with invaluable knowledge of business and economics, which is essential to running a city's affairs.

My working life began in banking, then with HM Customs & Excise before buying a sub-post office business with my wife and then setting up a consultancy for small businesses.

Unemployment is an increasing problem and we need to cut the red tape and taxes hampering small businesses and raise the threshold for income tax.

There is a need for firm policing as demonstrated by the riots and we need more officers on the front line, not less as government cuts demand. Making Salford a safer city is high on my priorities as is bringing unoccupied premises back into use.

At a time of cuts we must ensure that ratepayer's money is not wasted, such as has happened on the Crescent & Chapel Street, which is almost criminal.

As chairman of the North West Counties Squash League I know the importance of sport and strongly believe that leisure centres must be kept open and improved to make them more attractive to all age groups, particularly young people.

Having been a member of UKIP for 15 years I have no doubts that it is the only party that can halt the decline in this country. People want the chance to improve their lives and I want to make that possible.

Your Labour Party Candidate

Dear Friend,

The vision and experience to change Salford for the better

These elections are important.

For the first time you will be voting for and electing an Executive City Mayor of Salford

who will have the responsibility of running the City for the next four years. **This is not the same person as the Ceremonial Mayor with the gold chain.**

This takes place at a time when hard working families are finding it hard to make ends meet. The cost of living keeps rising and at the same time this Tory-led Government is cutting vital services to the elderly and vulnerable as well as cutting police, fire and health services. Frontline services we all depend on.

I have lived in Salford for 50 years. I have raised my family here; this is where my roots are. Salford is a great City and we have a proud history. But I recognise the fact that Salford

has to change. We need to bring more investment into the City and create local employment while providing quality, affordable, value for money services.

We also need to ensure vital services that help the elderly, the vulnerable and our children are protected. And we need to provide high quality educational facilities that will equip our citizens for the 21st Century.

Salford needs a strong voice that will stand up for our City, someone who is prepared to take on the government and fight for a fair deal for our area. It is simply not acceptable that Salford should lose investment as the money is diverted by the Tories to the south.

If elected I promise I will work with employers, local communities, workers' and other organisations and educational services to bring the resources we need into the City. As someone who served as MP for Eccles, I have a proven track record of winning investment and working with businesses to create jobs.

By cutting too far, too fast, the Tories - LibDems are potentially forcing another recession upon us and it will be Salford people who pay the price. **The Tories - LibDems can not claim 'we are all in this together' and at the same time give a £40,000 tax break to millionaires, while five million pensioners are hit by their Government's 'Granny Tax' in order to balance the books.**

Salford needs someone who will stand up for our neighbourhoods, not a Tory - LibDem cheerleader who will support every Government cut.

I have the experience and the commitment to deliver the change that Salford needs. I hope I can count on your support.

My pledges to you:

- I will work hard and listen to your views
- I will always put the residents of Salford first
- I will bring regeneration and jobs into our City
- I will demand a better deal for Salford from this Tory-led Government
- I will ensure that Salford provides efficient, value for money services

Yours sincerely
Ian Stewart

Are you unhappy with the current **LABOUR** leadership of Salford council?

Are you unhappy with the **CONSERVATIVES & LIB DEMS** running central government?

Then Vote **PAT WARD** for **MAYOR OF SALFORD**

Dear fellow Salfordian,

The current Labour leadership of Salford Council are letting us down and the Conservative-Lib Dem government are out of touch with Salford people.

I have formerly worked for over 20 years for Salford Council and I know first-hand where money is wasted and improvements can be made.

I want to get our priorities straight, protect our public services and put as much money as possible back into the pockets of Salford people.

I don't stand for a political party. I stand for people and communities. I have strong Labour values, but the current Labour leadership has let us down and now change is needed. A fresh pair of eyes and a clear vision that takes into account the views of Salford people is what I look to bring to Salford if I am elected Mayor.

If you feel the same, then vote to change things. Vote for me.

KAREN GARRIDO

Conservative Candidate for Mayor

 **Vote Conservative**

I am standing to be the first directly elected Mayor of Salford because I believe passionately in our city and what we can achieve if we work together.

For years you have told me that you are tired of a council that never listens to what you have to say. After 40 years of being ignored, you now have a real chance to vote for change.

I will open the doors of democracy in Salford. Whoever you are, whatever your background, wherever in the city you live, if you love Salford and want us to thrive, I will speak up for you.

My motto is "trust the people". Salford will be a better place to live when you have the power to make your own decisions for your family and the community around you. With lower council tax year-on-year, you will have more of your money to spend how you think best.

We all want our children to have the best possible start in life, a good education and a safe place to live and play. I will give you greater choice in education and a clearer, fairer admissions policy in our schools. I will protect our green spaces and precious environment and I will ensure zero-tolerance of crime and anti-social behaviour.

At this election, you really can make a difference. Let the 3rd May 2012 be a fresh start for Salford. Vote for me, and together we can make Salford a fairer, better place to live for us all.

Dear Salfordian,

I am 53 years-old and live in Irlam o' th' Heights, and I love Salford. I am proud to have served in the British Army for six years, have managed my own business and worked as a telecom engineer.

As Mayor of Salford I will save your money. I will cut spending on translation services and put a stop to Labour wasting our money on unnecessary 'politically correct' projects.

I will expose and oppose the Labour policy of forced mass immigration that is destroying Salford and make sure that pensioners receive the quality of service they deserve. I will always put local families first and abolish the housing bidding system by making sure local people are always put at the top of the list. I will campaign for free parking in commercial areas of Salford to encourage shopping and invest in building our local economy to help provide jobs for local people.

Salford needs a strong voice of reason and commonsense in the Town Hall. I will provide that voice. So let's set about improving our city together.

Your Mayoral Alliance Candidate  ELECT A MAYOR

How Michael Felse will cut Council Tax by 50%

“My commitment is to cut council tax from being one of the highest in the country. I will protect all essential services and you will see Real Change from day one”.

How my spending trim will cut Council Tax by 50%

- 1) Reduce the high regeneration annual budget from £140 million by £32 million, using newer ways to fund future projects.
- 2) Increase occupation of our 12,000 empty homes to collect £7 million from the 14,000 on our housing waiting list.
- 3) Use council internal whistle blowing to produce £6 million savings.
- 4) Direct scrutiny of Council Services will trim back 2% giving us £12 million.
- 5) Decrease value of external service agreements pulling back £11 million.
- 6) Cut out costly consultants and trim councillor expenses gives us £7 million.

The six savings add up to £75 million because:-

- 1) £47 million will reduce Salford Council Tax by 50% for every household.
- 2) A City wide council housing rent freeze will be imposed for at least three years to help our residents & attract more people.
- 3) £6 million helps senior citizens local community groups to relieve dementia.
- 4) Up to £1 million will establish a protective Green Belt Cooperative.
- 5) Over £15 million into creating new enterprises in the heart of communities including young people's innovations.
- 6) Up to £6 million into community committees for local ward projects.

I was the business development manager for coal regeneration projects that helped many ex coal miners become social entrepreneurs. I will support Salford University and the voluntary sector to create 400 new social enterprises which would create vital job opportunities for young people in Salford. The Mayor's responsibility is to make sure your tax money is spent protecting the essential front line services. To give the best return on services we must turn Salford into a low cost place, where people want to live, where cost effective business creates jobs.
