Change Log

12th August 2017: Correction to Market ward, Cambridge (thanks to Colin Rosentiel).

1st August 2015: Gain information added for Walsall.

14th April 2015: The seat won by Gwenda Thomas in the Welsh Assembly was Neath, not Gower.

1st April 2015: Blandford Old Town ward, North Dorset was LD gain from C.

22nd March 2015: Chadsmead ward, Lichfield was 1 LD gain from Lab, not 1 LD gain from C.

15th March 2015: Dorchester East ward, West Dorset was 2 LD holds; Dorchester North ward, West Dorset was 1 LD gain from Ind.

13th March 2015: Winstanley ward, Blaby was 1 C gain from Lab; Calverton ward, Gedling was 2 Calverton First Independents gain from Lab..

1st March 2015: Consolidated results for Taunton Deane corrected. The Lib Dems polled 15005 votes and elected 26 councillors.

21st February 2015: Hartshorne and Ticknall ward, South Derbyshire was 2 C gains from Lab.

15th February 2015: Marlow South East ward, Wycombe was 1 C gain from LD.

30th January 2015: Malton ward, Ryedale was 2 Ind gains from LD.

29th January 2015: Walton ward, King’s Lynn and West Norfolk was C gain from Ind, not C gain from LD.

24th January 2015: Billingshurst and Shepley, and Holbrook East wards, Horsham were both 1 C gain from LD.

14th December 2014: Aylesford ward, Tonbridge and Malling was 2 C gains from LD, not 2 C holds.

15th June 2014: Soham North ward, East Cambridgeshire was 2 C gains from Ind, not 2 C gains from LD.

9th August 2013: Result for Skelton ward, Redcar and Cleveland corrected; the result as originally declared contained an arithmetical error which resulted in the Labour candidates having higher declared votes than were actually the case.

Introduction and Abbreviations

Elections were held on 3rd May 2007 in England to all metropolitan boroughs, many unitary authorities in England and almost all shire districts, in Scotland to the Scottish Parliament and local authorities, and in Wales to the Welsh Assembly.

The voting system used for all local government elections in England was first-past-the-post, with multi-member FPTP being used where more than one seat was up for election.

The 36 metropolitan boroughs are all elected by thirds. Each ward has three councillors, with the councillor finishing second in the poll in 2004 (when the current ward boundaries were introduced) being up for election in each ward. In some cases two seats were up for election, due to the death or resignation of another councillor for the ward within six months of the election. Results of these elections are contained in Part I, which each of the former metropolitan counties constituting a separate chapter.

The English unitary authorities and shire districts may have up to three councillors in each ward, and may hold elections either all at once or by thirds. A few districts elect by halves every two years; none of these districts held an election this year. Where districts elect by thirds generally not all of the wards in the district hold an election every year. A few shire districts and unitary authorities were using new ward boundaries, and so ward results will not be directly comparable with previous years. A full explanation of the electoral arrangements is given at the head of each council's entry.

Unitary election results are shown in Part II, with shire district results in Part III. Part II is divided into eight chapters based on region, while Part III has one chapter for each county.

The Scottish Parliament and Welsh Assembly elections use a form of the Additional Member System of proportional representation. In each single-member constituencies are used (which, with one exception,¹ are coterminous with the UK parliamentary constituencies) with the country also being divided into regions from which top-up seats are allocated to restore a proportional balance of seats over the region. In Scotland, there are eight regions electing seven regional MSPs each; in Wales five regions with four regional AMs each. Welsh Assembly results are in Part IV and Scottish Parliament results are in Part V, with constituency and regional results forming separate chapters. New

¹Orkney and Shetland forms one UK parliamentary constituency but two Scottish Parliament constituencies.

constituency and region boundaries were introduced for the Welsh Assembly at this election.

The electoral system for Scottish local authorities was reformed at this election, with councillors elected from three- or four-member wards using the Single Transferable Vote method of proportional representation. For most councils I have been able to source full transfer information, although some stages and details have been omitted to save space. Elections to these authorities are shown in Part VI. I have grouped the Scottish councils into eight chapters based on geography: Aberdeenshire (Chapter 53), Ayrshire (Chapter 54), Border (Chapter 55), Clyde (Chapter 56), Forth (Chapter 57), Highland (Chapter 58), Island (Chapter 59) and Tay (Chapter 60).

Finally, at the back you will find an Index of Wards.

Where a candidate in an election dies, the election in that ward is cancelled and rearranged for a later date. This happened in the following wards at this election:

- | | |
|---|---|
| • Beeston Central, Broxtowe | • Frampton Cotterell, South Gloucestershire |
| • Berry Head-with-Furzeham, Torbay | • Hednesford South, Cannock Chase |
| • Bramshaw, Copythorne North and Minstead, New Forest | • Llanyblodwel and Pant, Oswestry |
| • Burnham-on-Crouch North, Maldon | • Meopham North, Gravesham |
| • Carterton North East, West Oxfordshire | • Warley, Calderdale |
| • Davenham and Moulton, Vale Royal | • Weston-super-Mare North Worle, North Somerset |
| • Featherstone and Shareshill, South Staffordshire | • Wingrove, Newcastle upon Tyne |

Here is a list of abbreviations used in this book for major parties and selected other parties which fought several councils. This list is not exhaustive; parties which put up only a few candidates will generally have their abbreviation listed at the head of the entry for the relevant council. Please note that the $\frac{1}{2}$ Lab $\frac{1}{2}$ label includes candidates who were jointly sponsored by the Labour and Co-operative Parties.

Chapter 15

Bedfordshire

15.1 Bedford

One-third of council up for election. No elections this year in Eastcotts, Harrold, Kempston East, Kempston North, Newnham, Oakley, Queen's Park or Riseley.

This was the last election to Bedford Borough Council before its abolition and replacement by a unitary council in 2009; the 2008 elections were cancelled.

34.2 Broadland

Whole council up for election. One Liberal Democrat councillor was elected unopposed.

This was the first whole council election to Broadland council, which had previously elected by thirds. The 2006 elections were cancelled and so the comparisons are with the whole council election in 2004, when the current ward boundaries were introduced.

Chapter 59

Island Councils

59.1 Eilean Siar

Note:— “Comhairle nan Eilean Siar” is the new Gaelic name of the former Western Isles Council.

All of the wards have Gaelic names. Approximate English translations are:

1. Barraigh, Bhatarsaigh, Eirisgeigh agus Uibhist a Deas = Barra, Vatersay, Eriskay and South Uist

2. Beinn na Foghla agus Uibhist a Tuath = Benbecula and North Uist

3. Na Hearadh agus Ceann a Deas nan Loch = Harris and Park

4. Sgir’ Uige agus Ceann a Tuath nan Loch = Uig and North Lochs

5. Sgìre an Rubha = Eye Peninsula

6. Steòrnabhagh a Deas = Stornoway South

7. Steòrnabhagh a Tuath = Stornoway North

8. Loch a Tuath = Broad Bay

9. An Taobh Siar agus Nis = West Side and Ness

GNU Free Documentation License

Version 1.3, 3 November 2008

Copyright © 2000, 2001, 2002, 2007, 2008 Free Software Foundation, Inc.

<http://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The purpose of this License is to make a manual, textbook, or other functional and useful document “free” in the sense of freedom: to assure everyone the effective freedom to copy and redistribute it, with or without modifying it, either commercially or noncommercially. Secondly, this License preserves for the author and publisher a way to get credit for their work, while not being considered responsible for modifications made by others.

This License is a kind of “copyleft”, which means that derivative works of the document must themselves be free in the same sense. It complements the GNU General Public License, which is a copyleft license designed for free software.

We have designed this License in order to use it for manuals for free software, because free software needs free documentation: a free program should come with manuals providing the same freedoms that the software does. But this License is not limited to software manuals; it can be used for any textual work, regardless of subject matter or whether it is published as a printed book. We recommend this License principally for works whose purpose is instruction or reference.

1. Applicability and definitions

This License applies to any manual or other work, in any medium, that contains a notice placed by the copyright holder saying it can be distributed under the terms of this License. Such a notice grants a world-wide, royalty-free license, unlimited in duration, to use that work under the conditions stated herein. The “Document”, below, refers to any such manual or work. Any member of the public is a licensee, and is addressed as “you”. You accept the license if you copy, modify or distribute the work in a way requiring permission under copyright law.

A “*Modified Version*” of the Document means any work containing the Document or a portion of it, either copied verbatim, or with modifications and/or translated into another language.

A “*Secondary Section*” is a named appendix or a front-matter section of the Document that deals exclusively with the relationship of the publishers or authors of the Document to the Document’s overall subject (or to related matters) and contains nothing that could fall directly within that overall subject. (Thus, if the Document is in part a textbook of mathematics, a Secondary Section may not explain any mathematics.) The relationship could be a matter of historical connection with the subject or with related matters, or of legal, commercial, philosophical, ethical or political position regarding them.

The “*Invariant Sections*” are certain Secondary Sections whose titles are designated, as being those of Invariant Sections, in the notice that says that the Document is released under this License. If a section does not fit the above definition of Secondary then it is not allowed to be designated as Invariant. The Document may contain zero Invariant Sections. If the Document does not identify any Invariant Sections then there are none.

The “*Cover Texts*” are certain short passages of text that are listed, as Front-Cover Texts or Back-Cover Texts, in the notice that says that the Document is released under this License. A Front-Cover Text may be at most 5 words, and a Back-Cover Text may be at most 25 words.

A “*Transparent*” copy of the Document means a machine-readable copy, represented in a format whose specification is available to the general public, that is suitable for revising the document straightforwardly with

generic text editors or (for images composed of pixels) generic paint programs or (for drawings) some widely available drawing editor, and that is suitable for input to text formatters or for automatic translation to a variety of formats suitable for input to text formatters. A copy made in an otherwise Transparent file format whose markup, or absence of markup, has been arranged to thwart or discourage subsequent modification by readers is not Transparent. An image format is not Transparent if used for any substantial amount of text. A copy that is not “Transparent” is called “*Opaque*”.

Examples of suitable formats for Transparent copies include plain ASCII without markup, Texinfo input format, LaTeX input format, SGML or XML using a publicly available DTD, and standard-conforming simple HTML, PostScript or PDF designed for human modification. Examples of transparent image formats include PNG, XCF and JPG. Opaque formats include proprietary formats that can be read and edited only by proprietary word processors, SGML or XML for which the DTD and/or processing tools are not generally available, and the machine-generated HTML, PostScript or PDF produced by some word processors for output purposes only.

The “*Title Page*” means, for a printed book, the title page itself, plus such following pages as are needed to hold, legibly, the material this License requires to appear in the title page. For works in formats which do not have any title page as such, “*Title Page*” means the text near the most prominent appearance of the work’s title, preceding the beginning of the body of the text.

The “*publisher*” means any person or entity that distributes copies of the Document to the public.

A section “*Entitled XYZ*” means a named subunit of the Document whose title either is precisely XYZ or contains XYZ in parentheses following text that translates XYZ in another language. (Here XYZ stands for a specific section name mentioned below, such as “*Acknowledgements*”, “*Dedications*”, “*Endorsements*”, or “*History*”.) To “*Preserve the Title*” of such a section when you modify the Document means that it remains a section “*Entitled XYZ*” according to this definition.

The Document may include Warranty Disclaimers next to the notice which states that this License applies to the Document. These Warranty Disclaimers are considered to be included by reference in this License, but only as regards disclaiming warranties: any other implication that these Warranty Disclaimers may have is void and has no effect on the meaning of this License.

2. Verbatim copying

You may copy and distribute the Document in any medium, either commercially or noncommercially, provided that this License, the copyright notices, and the license notice saying this License applies to the Document are reproduced in all copies, and that you add no other conditions whatsoever to those of this License. You may not use technical measures to obstruct or control the reading or further copying of the copies you make or distribute. However, you may accept compensation in exchange for copies. If you distribute a large enough number of copies you must also follow the conditions in section 3.

You may also lend copies, under the same conditions stated above, and you may publicly display copies.

3. Copying in quantity

If you publish printed copies (or copies in media that commonly have printed covers) of the Document, numbering more than 100, and the Document's license notice requires Cover Texts, you must enclose the copies in covers that carry, clearly and legibly, all these Cover Texts: Front-Cover Texts on the front cover, and Back-Cover Texts on the back cover. Both covers must also clearly and legibly identify you as the publisher of these copies. The front cover must present the full title with all words of the title equally prominent and visible. You may add other material on the covers in addition. Copying with changes limited to the covers, as long as they preserve the title of the Document and satisfy these conditions, can be treated as verbatim copying in other respects.

If the required texts for either cover are too voluminous to fit legibly, you should put the first ones listed (as many as fit reasonably) on the actual cover, and continue the rest onto adjacent pages.

If you publish or distribute Opaque copies of the Document numbering more than 100, you must either include a machine-readable Transparent copy along with each Opaque copy, or state in or with each Opaque copy a computer-network location from which the general network-using public has access to download using public-standard network protocols a complete Transparent copy of the Document, free of added material. If you use the latter option, you must take reasonably prudent steps, when you begin distribution of Opaque copies in quantity, to ensure that this Transparent copy will remain thus accessible at the stated location until at least one year after the last time you distribute an Opaque copy (directly or through your agents or retailers) of that edition to the public.

It is requested, but not required, that you contact the authors of the Document well before redistributing any large number of copies, to give them a chance to provide you with an updated version of the Document.

4. Modifications

You may copy and distribute a Modified Version of the Document under the conditions of sections 2 and 3 above, provided that you release the Modified Version under precisely this License, with the Modified Version filling the role of the Document, thus licensing distribution and modification of the Modified Version to whoever possesses a copy of it. In addition, you must do these things in the Modified Version:

- A. Use in the Title Page (and on the covers, if any) a title distinct from that of the Document, and from those of previous versions (which should, if there were any, be listed in the History section of the Document). You may use the same title as a previous version if the original publisher of that version gives permission.
- B. List on the Title Page, as authors, one or more persons or entities responsible for authorship of the modifications in the Modified Version, together with at least five of the principal authors of the Document (all of its principal authors, if it has fewer than five), unless they release you from this requirement.
- C. State on the Title page the name of the publisher of the Modified Version, as the publisher.
- D. Preserve all the copyright notices of the Document.
- E. Add an appropriate copyright notice for your modifications adjacent to the other copyright notices.
- F. Include, immediately after the copyright notices, a license notice giving the public permission to use the Modified Version under the terms of this License, in the form shown in the Addendum below.
- G. Preserve in that license notice the full lists of Invariant Sections and required Cover Texts given in the Document's license notice.
- H. Include an unaltered copy of this License.
- I. Preserve the section Entitled "History", Preserve its Title, and add to it an item stating at least the title, year, new authors, and publisher of the Modified Version as given on the Title Page. If there is no section Entitled "History" in the Document, create one stating the title, year, authors, and publisher of the Document as given on its Title Page, then add an item describing the Modified Version as stated in the previous sentence.
- J. Preserve the network location, if any, given in the Document for public access to a Transparent copy of the Document, and likewise the network locations given in the Document for previous versions it was based on. These may be placed in the "History" section. You may omit a network location for a work that was published at least four years before the Document itself, or if the original publisher of the version it refers to gives permission.
- K. For any section Entitled "Acknowledgements" or "Dedications", Preserve the Title of the section, and preserve in the section all the substance and tone of each of the contributor acknowledgements and/or dedications given therein.
- L. Preserve all the Invariant Sections of the Document, unaltered in their text and in their titles. Section numbers or the equivalent are not considered part of the section titles.
- M. Delete any section Entitled "Endorsements". Such a section may not be included in the Modified Version.
- N. Do not retile any existing section to be Entitled "Endorsements" or to conflict in title with any Invariant Section.
- O. Preserve any Warranty Disclaimers.

If the Modified Version includes new front-matter sections or appendices that qualify as Secondary Sections and contain no material copied from the Document, you may at your option designate some or all of these sections as invariant. To do this, add their titles to the list of Invariant Sections in the Modified Version's license notice. These titles must be distinct from any other section titles.

You may add a section Entitled "Endorsements", provided it contains nothing but endorsements of your Modified Version by various parties—for example, statements of peer review or that the text has been approved by an organization as the authoritative definition of a standard.

You may add a passage of up to five words as a Front-Cover Text, and a passage of up to 25 words as a Back-Cover Text, to the end of the list of Cover Texts in the Modified Version. Only one passage of Front-Cover Text and one of Back-Cover Text may be added by (or through arrangements made by) any one entity. If the Document already includes a cover text for the same cover, previously added by you or by arrangement made by the same entity you are acting on behalf of, you may not add another; but you may replace the old one, on explicit permission from the previous publisher that added the old one.

The author(s) and publisher(s) of the Document do not by this License give permission to use their names for publicity for or to assert or imply endorsement of any Modified Version.

5. Combining documents

You may combine the Document with other documents released under this License, under the terms defined in section 4 above for modified versions, provided that you include in the combination all of the Invariant Sections of all of the original documents, unmodified, and list them all as Invariant Sections of your combined work in its license notice, and that you preserve all their Warranty Disclaimers.

The combined work need only contain one copy of this License, and multiple identical Invariant Sections may be replaced with a single copy. If there are multiple Invariant Sections with the same name but different contents, make the title of each such section unique by adding at the end of it, in parentheses, the name of the original author or publisher of that section if known, or else a unique number. Make the same adjustment to the section titles in the list of Invariant Sections in the license notice of the combined work.

In the combination, you must combine any sections Entitled "History" in the various original documents, forming one section Entitled "History"; likewise combine any sections Entitled "Acknowledgements", and any sections Entitled "Dedications". You must delete all sections Entitled "Endorsements".

6. Collections of documents

You may make a collection consisting of the Document and other documents released under this License, and replace the individual copies of this License in the various documents with a single copy that is included in the collection, provided that you follow the rules of this License for verbatim copying of each of the documents in all other respects.

You may extract a single document from such a collection, and distribute it individually under this License, provided you insert a copy of this License into the extracted document, and follow this License in all other respects regarding verbatim copying of that document.

7. Aggregation with independent works

A compilation of the Document or its derivatives with other separate and independent documents or works, in or on a volume of a storage or distribution medium, is called an "aggregate" if the copyright resulting from the compilation is not used to limit the legal rights of the compilation's users beyond what the individual works permit. When the Document is included in an aggregate, this License does not apply to the other works in the aggregate which are not themselves derivative works of the Document.

If the Cover Text requirement of section 3 is applicable to these copies of the Document, then if the Document is less than one half of the entire aggregate, the Document's Cover Texts may be placed on covers that bracket the Document within the aggregate, or the electronic equivalent of covers if the Document is in electronic form. Otherwise they must appear on printed covers that bracket the whole aggregate.

8. Translation

Translation is considered a kind of modification, so you may distribute translations of the Document under the terms of section 4. Replacing Invariant Sections with translations requires special permission from their copyright holders, but you may include translations of some or all Invariant Sections in addition to the original versions of these Invariant Sections. You may include a translation of this License, and all the license notices in the Document, and any Warranty Disclaimers, provided that you also include the original English version of this License and the original versions of those notices and disclaimers. In case of a disagreement between the translation and the original version of this License or a notice or disclaimer, the original version will prevail.

If a section in the Document is Entitled "Acknowledgements", "Dedications", or "History", the requirement (section 4) to Preserve its Title (section 1) will typically require changing the actual title.

9. Termination

You may not copy, modify, sublicense, or distribute the Document except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, or distribute it is void, and will automatically terminate your rights under this License.

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, receipt of a copy of some or all of the same material does not give you any rights to use it.

10. Future revisions of this License

The Free Software Foundation may publish new, revised versions of the GNU Free Documentation License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. See <http://www.gnu.org/copyleft/>.

Each version of the License is given a distinguishing version number. If the Document specifies that a particular numbered version of this License “or any later version” applies to it, you have the option of following the terms

and conditions either of that specified version or of any later version that has been published (not as a draft) by the Free Software Foundation. If the Document does not specify a version number of this License, you may choose any version ever published (not as a draft) by the Free Software Foundation. If the Document specifies that a proxy can decide which future versions of this License can be used, that proxy’s public statement of acceptance of a version permanently authorizes you to choose that version for the Document.

11. Relicensing

“Massive Multiauthor Collaboration Site” (or “MMC Site”) means any World Wide Web server that publishes copyrightable works and also provides prominent facilities for anybody to edit those works. A public wiki that anybody can edit is an example of such a server. A “Massive Multiauthor Collaboration” (or “MMC”) contained in the site means any set of copyrightable works thus published on the MMC site.

“CC-BY-SA” means the Creative Commons Attribution-Share Alike 3.0 license published by Creative Commons Corporation, a not-for-profit corporation with a principal place of business in San Francisco, California, as well as future copyleft versions of that license published by that same organization.

“Incorporate” means to publish or republish a Document, in whole or in part, as part of another Document.

An MMC is “eligible for relicensing” if it is licensed under this License, and if all works that were first published under this License somewhere other than this MMC, and subsequently incorporated in whole or in part into the MMC, (1) had no cover texts or invariant sections, and (2) were thus incorporated prior to November 1, 2008.

The operator of an MMC Site may republish an MMC contained in the site under CC-BY-SA on the same site at any time before August 1, 2009, provided the MMC is eligible for relicensing.
